

Length (D)**WEEK 4**

Megan has conducted a science experiment, to see how the temperature of the soil affected how seeds germinated. The 4 following thermometers have been use to measure the 4 test soil's temperature.

Can you read the temperature on 4 following thermometers:

e. Megan has discovered that the thermometer's she has used in her experiment have a variance and her results are incorrect. Can you work out the correct temperatures

i. **Soil 1** + 15°

ii. **Soil 2** - 1.2°

iii. **Soil 3** - 21.5°

iv. **Soil 4** - 2.3°
